Dear Grad Track Advisor,

It is my great pleasure to recommend _____ for admission to the
Computer Science and Engineering Grad Track program. My experience with them is through

_____ and have since had the great pleasure of their company as part of CSE's Undergraduate program. They
have exhibited academic ability and ambition that goes above and beyond the level at which most
entering graduate students perform.

They have proven to be a bright and capable student. During class discussions, they have often made
critical points and observations that demonstrate their outstanding ability to successfully analyze
difficult material. The same critical thinking consistently appears in their work as well.

I fully support their candidacy for the Grad Track program and their decision to continue their studies in
pursuing a master's degree in Computer Science and Engineering. I would like to reiterate my
recommendation; I believe they will be an excellent addition to the graduate program.

Sincerely,

Title:
